

Levellogger Software & Firmware

Solinst always recommends using the latest software and firmware release. Current releases can be downloaded at any time, free of charge, from the Solinst web site at: <https://www.solinst.com/downloads/>.

NOTE:

Solinst always recommends that our customers download the data from their Levelloggers, using the same Levellogger Software version they were originally programmed with.

Example: If a Levellogger Gold unit was programmed using Levellogger Software 3.4.1, Solinst recommends first downloading the data from your Levellogger Gold using Levellogger Software Version 3.4.1 and barometrically compensating the data in that version first, before upgrading your Levellogger Gold and PC Software to the latest version. After successfully retrieving the Levellogger data and barometrically compensating the data (if desired), you can then proceed to upgrade your Levellogger firmware and PC Software to the latest version.

Operating System Requirements

Levellogger PC Software Versions 4.3.0 and up are compatible with Windows 7, 8, and 10.

Levellogger® Model 3001	PC Software	Firmware	Solinst Levellogger App	DataGrabber Firmware	SDI-12 Firmware	Levellogger Firmware
 3001 Levellogger Edge	4.3.0 Includes Firmware Upgrade Utility Version 1.2.8	3.003 and up	3.2.0 iOS 9, or later			 Use a fully charged 9V battery during upgrade. A depleted battery may cause a communication interruption
 3001 Barologger Edge			Download on the App Store			
 *3001 Junior Edge		3.001	1.2.0 Android 4.4 or higher		Not user-upgradable	Not user-upgradable
 3002 Rainlogger Edge			GET IT ON Google play			
 3001 LTC Edge			1.000			

Note: Always use the latest Levellogger Software version to install the latest Firmware versions, unless otherwise stated.

Levellogger Accessories

Direct Read Cables, Optical Readers, Well Caps and other accessories are compatible with all versions of the Levellogger and Rainlogger Models. For information on the complete list of accessories available, please visit www.solinst.com

Previous Levellogger Versions

Levellogger® Model 3001	PC Software	Firmware	Solinst Levellogger App	Leveloader Gold Firmware
 3001 Levellogger Gold	4.3.0 Includes Firmware Upgrade Utility Version 1.2.8	2.007	3.2.0 iOS 9, or later 1.2.0 Android 4.4 or higher	2.002  Use a fully charged 9V battery in your Leveloader during upgrade. A depleted battery may cause a communication interruption
 3001 Barologger Gold				
 *3001 Junior				
 3001 LTC Junior		2.005		
 3002 Rainlogger		2.000		

*Note: The Levellogger Junior looks very similar to the new Levellogger Junior Edge. To determine the difference, if the fourth number in the serial number is 1, it is a Levellogger Junior; if the fourth number is a 2, it is a Levellogger Junior Edge.

Software/Firmware Upgrade Notes:

- To upgrade Levellogger Gold or Barologger Gold Firmware from 1.017 or higher, use the latest Firmware Upgrade Utility, which comes with the latest Levellogger Software version.
- To upgrade Levellogger Gold or Barologger Gold Firmware from 1.016 or lower, please contact Solinst.
- If you are programming Levelloggers using Levellogger Series Software 3.4.1, you must use Leveloader Firmware 1.200.
- Levellogger PC Software Version 3.4.1 is compatible with Windows 98, 2000, XP and Windows 7.
- SDI-12 Cables sold after November 1, 2013 are compatible with all Levelloggers and Rainlogger Models with latest firmware, with the exception of the LTC Levellogger Edge.

3001 Mini LT Levellogger

Note: The previous version of the Levellogger LT (Mini-Silver) and the LTC (Black Zirconium Oxide) are still compatible with all of the Solinst communication cables, except the SDI-12 Cable and the Levellogger App Interface. These Levellogger's are compatible only with Levellogger PC Software 3.1.1 with Windows 98, 2000 or XP, and Leveloader Firmware 1.000.
