Software & Firmware
Solinst always recommends using the latest software and firmware release. Current releases can be downloaded at any time, free of charge, from the Solinst web site at: https://www.solinst.com/downloads/.
Always use the latest Levelogger® PC Software version to install the latest Firmware versions.

Note: Solinst always recommends that our customers download the data from their AquaVent loggers, using the same Levelogger Software version they were originally programmed with.

Operating System Requirements
Levelogger PC Software Versions 4.5 and up are compatible with Windows 10.
